

EXPERIENCE THE POWER OF ROBUST MILESIGHT 4K H.265 PRO NVR 8000 SERIES

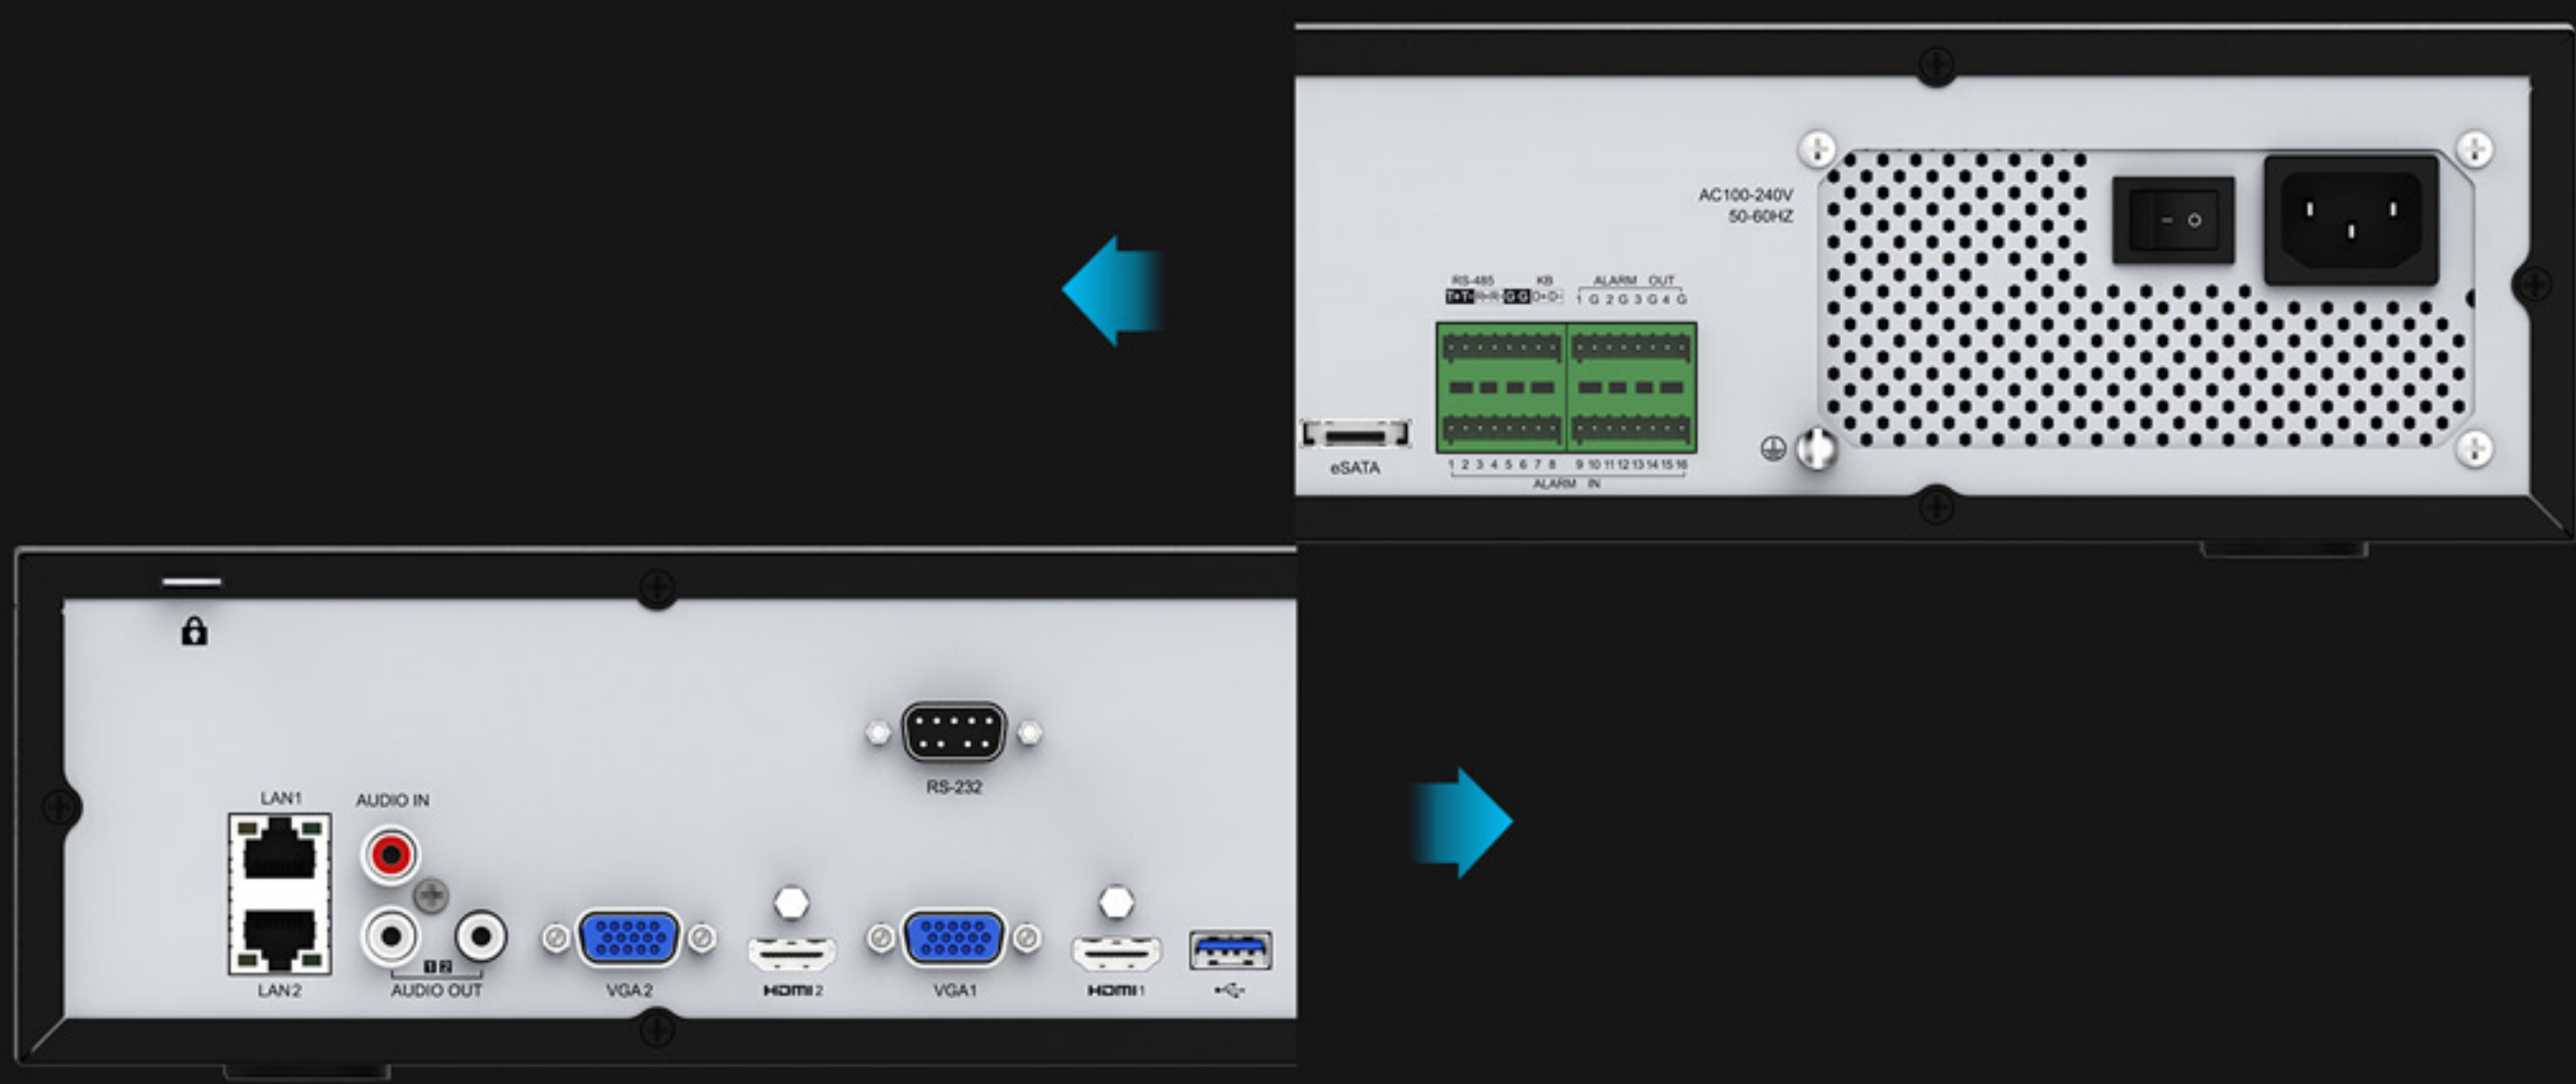

The brand new Miletight 4K Pro NVR 8000 Series is specially designed for flexible and reliable high definition surveillance. The ingenious 4K Pro NVR 8000 is a full-featured high-performance H.265 NVR which empowers users to set up and manage advanced IP surveillance systems with ease.

Optimized Hard Disk Installation

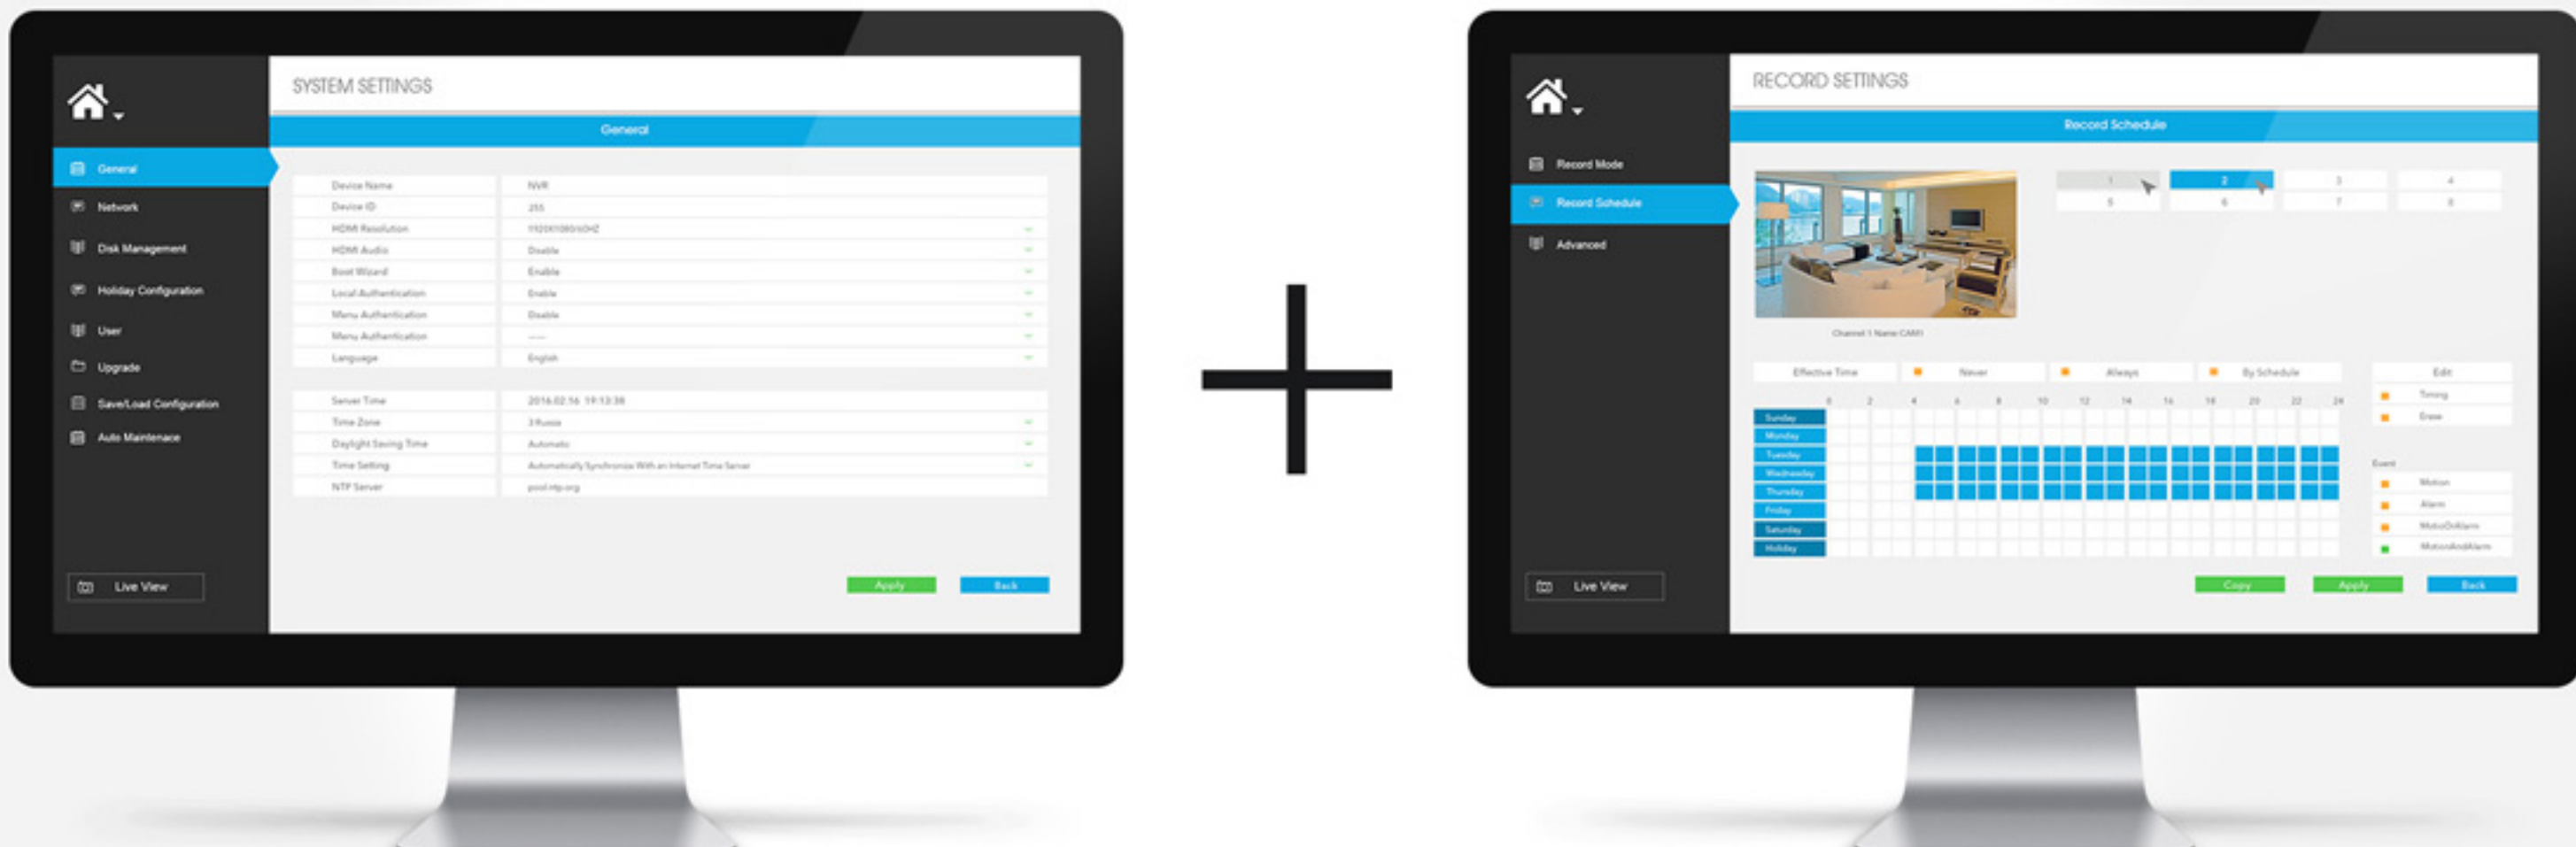

Hardware components are optimized to meet the demands for convenient and stable hard disk installation. With the 4 HDDs tightly screwed in each bracket and the two brackets locked in the slots design, the hard disks are surprisingly simpler to mount and the installation time is greatly minimized.

Versatile Interfaces

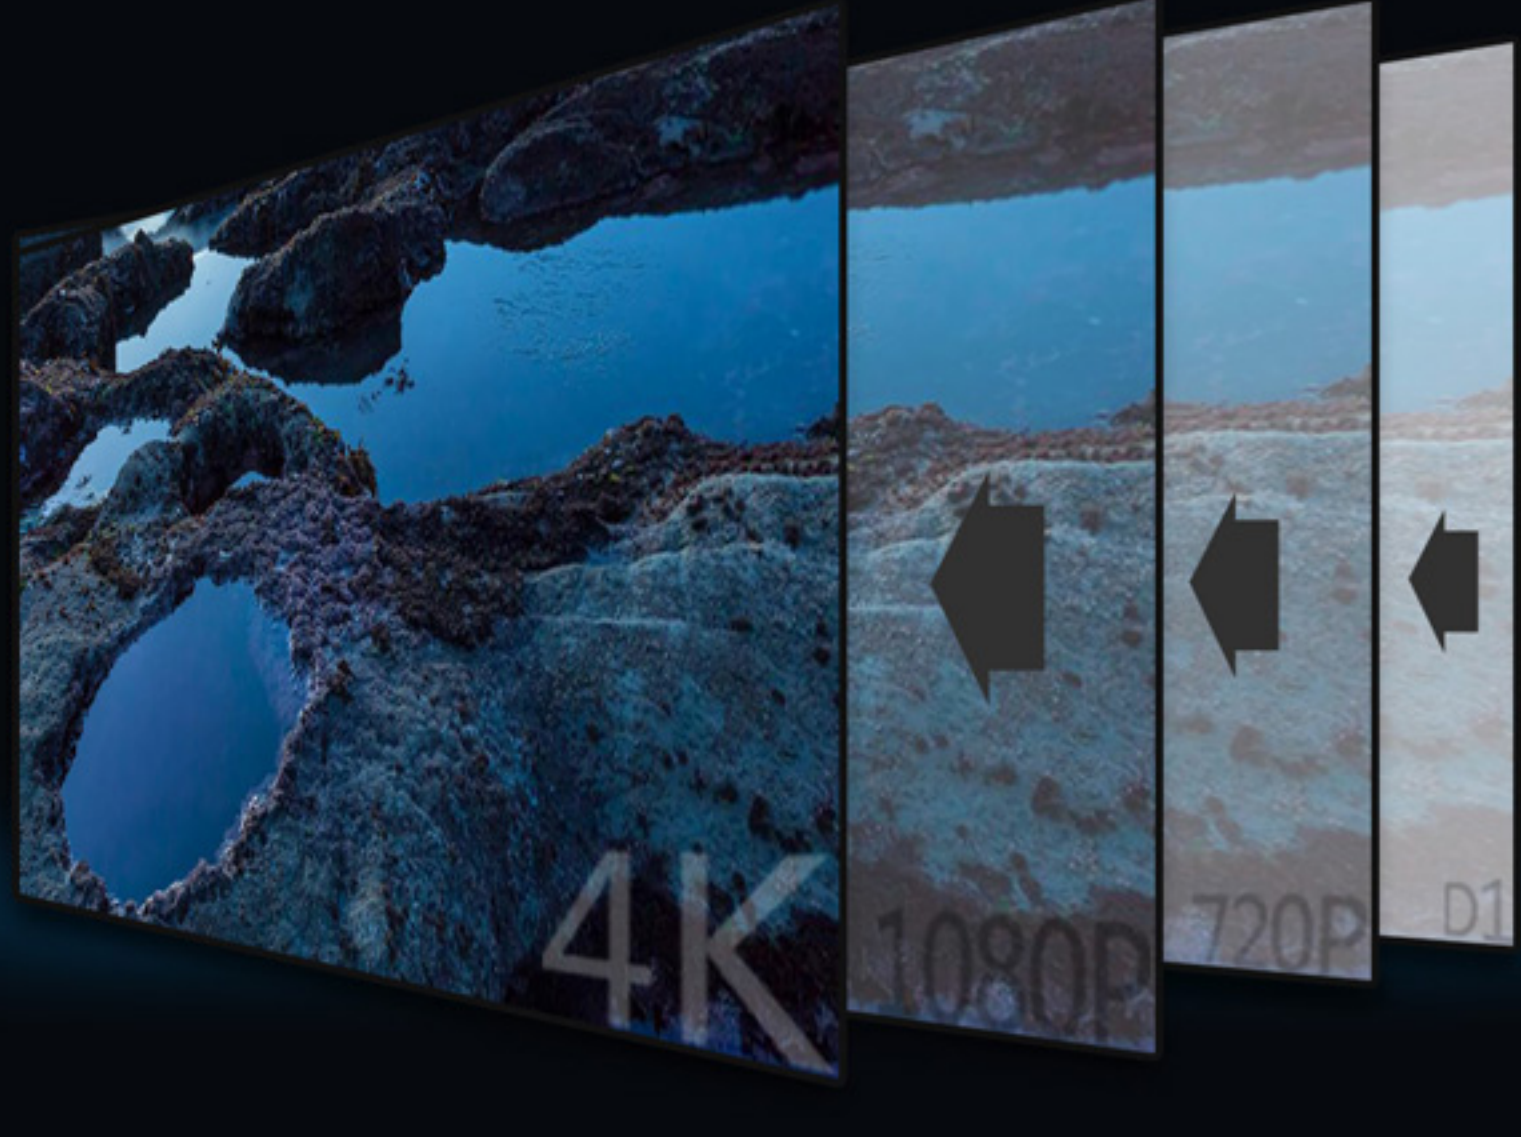

Miletight 4K Pro NVR 8000 Series comes with a whole array of ports such as 2 HDMI ports, 2 VGA ports, 3 USB ports and 2 LAN ports. The full set of interfaces provide all necessary features for effective surveillance.

Independent Main and Auxiliary Monitors

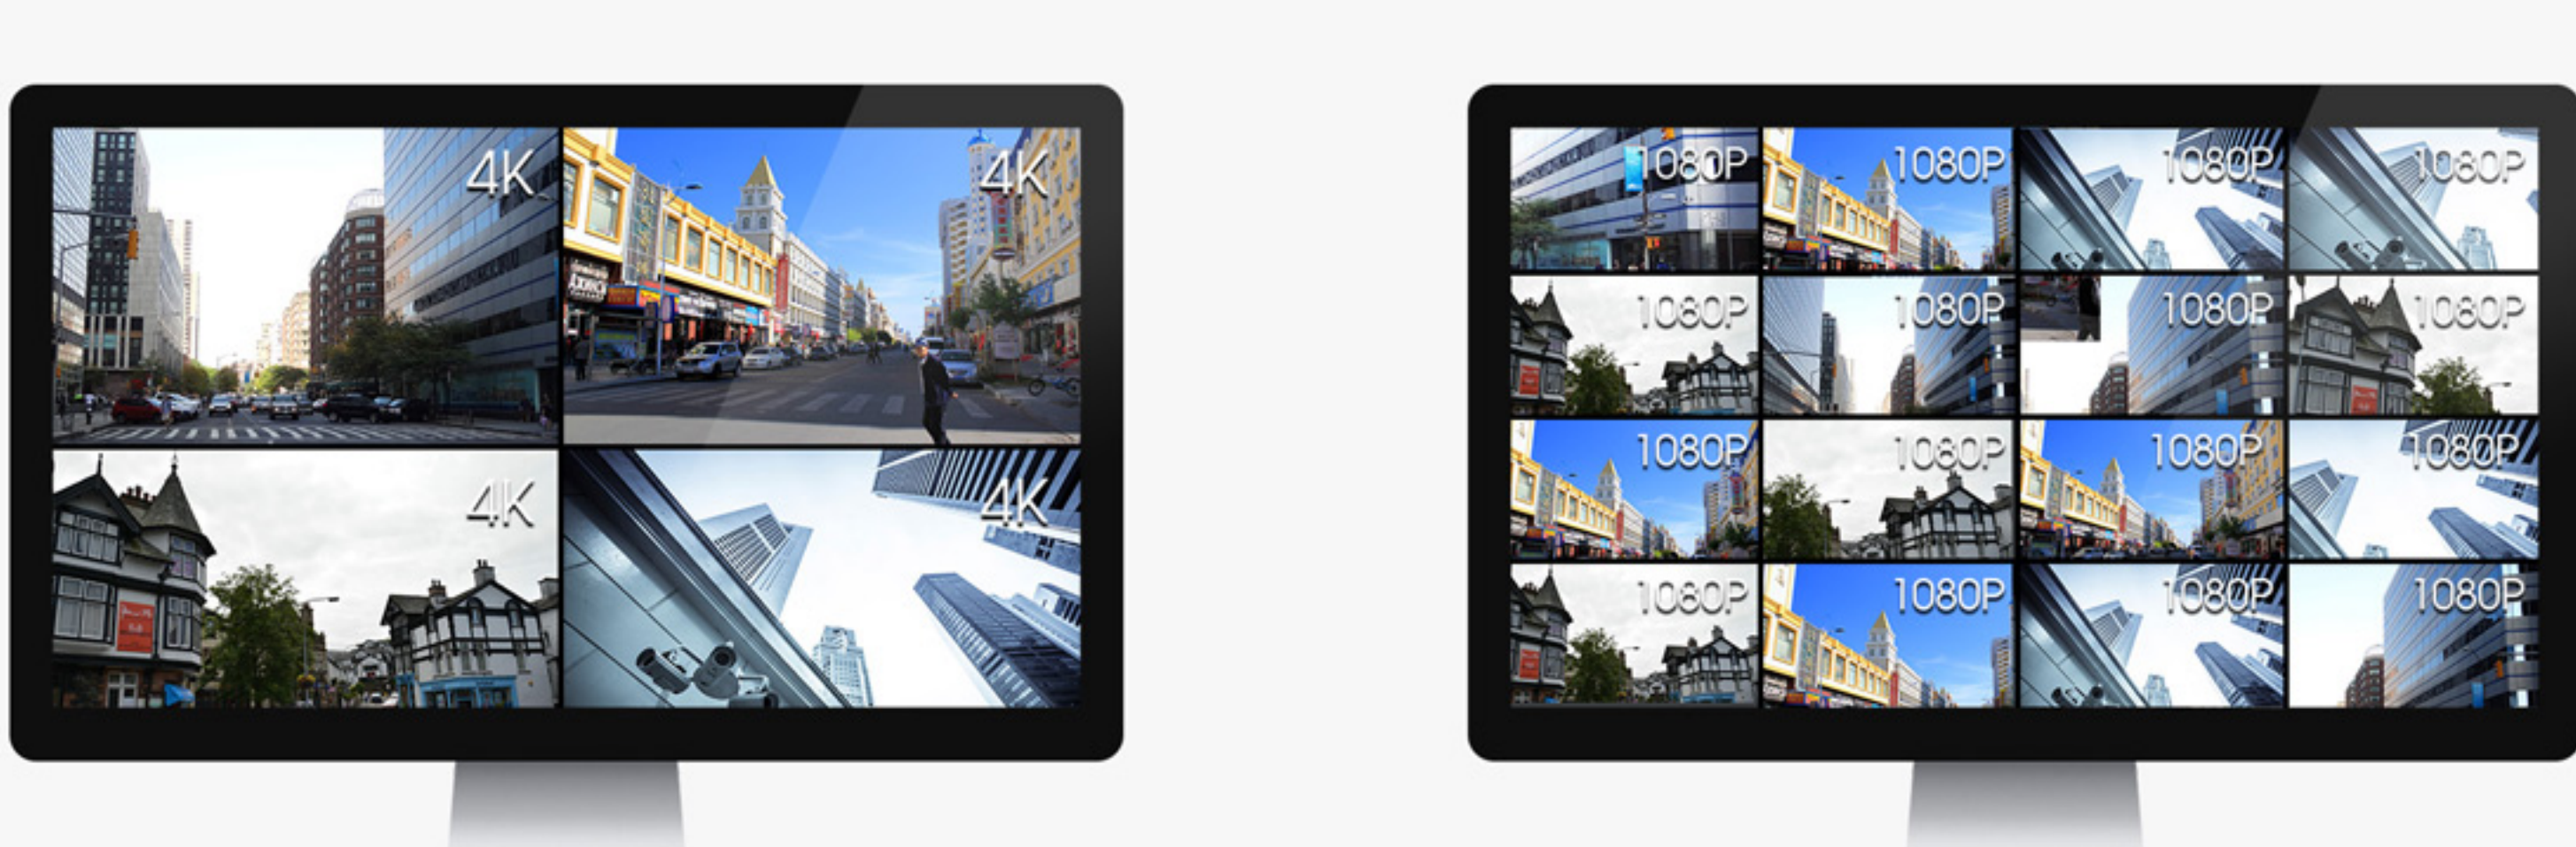

In order to provide a more extensive video display, Miletight 4K Pro 8000 NVRs can be connected with Main Monitor and Auxiliary Monitor to show different layouts on each monitor. The Auxiliary Monitor is a complementary to the Main Monitor and operations on separate monitor are supported simultaneously to offer a more efficient and explicit surveillance.

4K Video Viewing Experience

Miletight 4K Pro NVR 8000 Series introduces a whole new more smooth operation interface, when direct access to 4K network cameras it can decoded 4K real-time video and recording, to provide users with ultra-high-definition video viewing experience.

Powerful Decoding and Recording Performance

Miletight 4K Pro NVR 8000 Series is an ideal for those applications requiring robust decoding and recording performance, for this series can support synchronously decoding 4-ch 4K UHD, 8-ch 4MP and 16-ch 1080P network cameras, and synchronously recording up to 32-ch 5MP high resolution cameras.

Leading-edge H.265 Compression

H.265 is the next-generation video compression format that is twice as efficient as H.264. Compared to H.264, H.265 has the following benefits:

50% Reduction in Bandwidth

50% Reduction in Storage

50% Reduction in Bitrate at the Same Visual Quality

Futureproof Technology up to 8k
